

April Poems

Caterpillars

What do caterpillars do?
Nothing much but chew and chew.

What do caterpillars know?
Nothing much but how to grow.

They just eat what by and by
will make them be a butterfly.

But that is much more than I can do
however much I chew and chew.

Rabbit

Here comes a rabbit
Hop, hop, hop.
See how his long ears
Flop, flop, flop.
See how his nose goes
Twink, twink, twink.
See how his eyes go
Wink, wink, wink.
Stroke his warm coat,
Soft and furry
Hip, hop, hip, he's off in a hurry!
