

# Heart to Heart

Sometimes we wait for a special day  
To tell someone in a special way  
That friends mean a lot  
If they're kind and true.

---

My valentine wishes say that to you!

Now you may think that sounds overly mushy  
And maybe even surprisingly gushy  
But as always I am quite self-controlled  
About matters of import  
That have to be told!

You're a buddy, a friend, the best sort of pal  
The best of the best  
of the boys and the gals!

by Greta B. Lipson

## President's Day

Remembering  
what came before,  
we raised old flags  
in peace, and in war.

Remembering  
the names, their birth -  
we fuse stone monuments  
to the earth.

Remembering  
the brave, the great,  
we make these days  
to celebrate.

Remembering  
that we are free -  
we write their lives  
in history.
