Unrestricted (basic) expenditures per pupil	\$5,517
Restricted (supplemental) expenditures per pupil	\$4,509
Average teacher’s salary at this school	\$67,906

Facilities

Results of a facility inspection conducted on 9/8/08 rated this school’s condition as **GOOD.**

Canoas was reopened in August 2000. A new administration office, library, and two-story classroom building with modernized bathrooms were constructed in 2000. The older classrooms and cafeteria were painted and received new carpeting and linoleum. New kindergarten and school play structures were installed, new parking lots were constructed, and some landscaping was provided. Four portable classrooms were also installed; two used for Kindergarten classes and two used for our daycare program. In 2004-05,

eleven classrooms were refurbished with new sinks, cabinets, countertops, wall coverings, white boards, windows, curtains and a new air and heating system. New windows and a heating system were also installed in the cafeteria, along with an elevator providing access to our stage. The stage was also completely refurbished with refinished floors, paint, new lighting, and beautiful new curtains. The kitchen area was completely remodeled and new appliances were installed. The kindergarten play structure received a new sponge-like

ground cover adding support and safety for our children. Throughout the school, termite and dry rot damage was also fixed and where necessary, beams were replaced. In 2005-06, the school’s main play structure received the same sponge-like ground cover previously described for Kindergarten, a new out door drainage system was installed, and new concrete was poured to increase the sidewalk width and correct uneven pavement.
