Facilities

Results of a facility inspection conducted on 9/26/08 rated this school’s condition as **GOOD.**

Simonds School was built in 1966. The facility is safe and comfortable, and, as noted in the Blue Ribbon Site Visit report, “The school environment is VERY clean, neat, and orderly.” Extensive renovation, financed by a school bond measure, has been ongoing since 1998. Improvements to the school site include the installation of eight new portable classrooms. New heating and air conditioning units were installed in all classrooms.

Other improvements include new paint, new flooring, and casework in all classrooms, updated Internet wiring, new landscaping, and new furniture throughout the school. All playground equipment has been replaced, and new asphalt was installed in the playground area and parking lots and new athletic field.

Future scheduled construction activity includes miscellaneous paving maintenance and carpet replacement (2009), roofing

maintenance (2009), and portable replacement (2009).

General maintenance and repair is accomplished through a work order system. The school’s day custodian and a district night crew clean the buildings daily. Workers from the district Grounds Department are assigned to the school one half day each week.
