

Adopt a Family Holiday Program 2008

Dear Room 19 Families,

As a community service project, our class along with the third grade team, has decided to adopt a family to help for the holidays. This family comes to us through San Jose Unified's Healthy Start program. It is an opportunity to give gifts to others during the holiday season that might not otherwise get them.

Our class is going to be responsible for making stockings and filling them with stocking stuffers for the family members. The profile of the family is attached. The other third grade classes are working on the suggested items on the list, so we are only focusing on stockings and gifts to put in the stockings. It would be nice to make sure we have an equal number of gifts, especially for the children

I will have a collection box for the family's gifts. If you are interested in helping, you may send in either a gift card or an item for one of the family members with a post it note with the family member's name on it.

We will deliver the gifts to the family, along with the other 3 classes, on a date to be determined (no later than Fri., Dec. 19). Thank you so much for supporting this special project by giving gifts to those that most likely would not have gotten any without our support.

Please know this project is completely optional.

Sincerely,

Donna Yamada

ALL GIFTS ARE DUE BY MONDAY, DECEMBER 15.

Please send the gifts to before that date.
