Happy New Year Ram Families:

On behalf of the Willow Glen High School staff we would like to wish all our Rams and their families the very best in 2010! We ended our Fall 2009 semester on December 18, 2009 and begin our Spring 2010 semester on January 5, 2010. The month of January is a very busy one as you can see by the upcoming events, especially in our College and Career Center, listed on the side of this letter. Along with College information, scholarship and financial aid events we will be holding our incoming ninth grade recruitment tours on January 14, 21 and 28th. Our College and Career technician has been working diligently with all of our senior students to ensure their college applications are completed and mailed on time. We would like to thank Ms. Gill for all her hard work and dedication. Another big thank you is for our registrar, who during this busy time produces endless transcripts for our senior students, thank you Mrs. Levy.

All of our Winter sports have began and league play is taking place now for Basketball, Soccer and Wrestling.

We are also working on our next Spring Musical production with a new theatre group so stay tuned for more information. Our performing arts boosters have their annual crab feed that is coming up at the end of the month, so check it out.

As you drive by campus you can notice the construction that is coming along nicely for our new Science wing that will be completed by the end of the school year and open for classes in August 2010. The new facility will house five (5) new Science classrooms for our Biology and Chemistry teams.

If you are interested in attending and/or participating in any of our school foundation, parent groups or school site council please contact the school at (408) 535-6330 for a list of meetings, times and dates. All of our school groups would love to have additional participation and support for the school year.

Once again we would like to wish all of you a healthy and Happy 2010.

Shannon McGee
