*Polio (OPV or IPV)  
Diphtheria, Tetanus, and Pertussis (DTap)  
Measles, Mumps, and Rubella (MMR or MMR-V)  
Hepatitis B (Hep B or HBV)  
Varicella (chickenpox, VAR, MMRV, or VZV)  

1Combination vaccines (e.g., MMRV) meet the requirements for individual component vaccines.

2For children in ungraded schools, 12 years and older are subject to the 7th grade advancement requirements.

3One Hib dose must be given on or after the 1st birthday regardless of previous dose. Required only for children who have not reach the age of five year.

***The Santa Clara County Tuberculosis (TB) School Mandate has changed from a requirement for universal TB testing to a requirement for universal TB risk assessment. This requirement applies to all children who are enrolling for the first time to Transitional Kinder/Kindergarten or transferring at any grade level from outside of Santa Clara County. The TB risk assessment has to be dated within the past twelve months at the time of enrollment. A history of the TB required for all students attended a school within Santa Clara. Before enrollment, students are required to have their healthcare provider complete the Santa Clara County Public Health Department Risk Assessment for School Entry.***

#### INSTRUCTIONS:

California schools are required to check immunization records for all new student admissions at TK/Kindergarten through 12th grade and all students advancing to 7th grade before entry.

1. Notify parents of required immunizations and collect immunization records.
2. Compare number of doses on the Immunization Record to the requirements above.
3. Immunization record must contain the name of the student; birthdate; type of vaccine(s); Month, day and year of each immunization; name of the physician or agency administering the vaccine(s).
